

# User Guide

*Thank you for purchasing **Acoustic Panel Tape** by New Path Designs.*

## Package Contents:

- 1 Pack - 4 sheets of 48 tape squares.
- 2 Pack – 8 sheets of 96 tape squares.
- 4 Pack – 16 sheets of 192 tape squares.

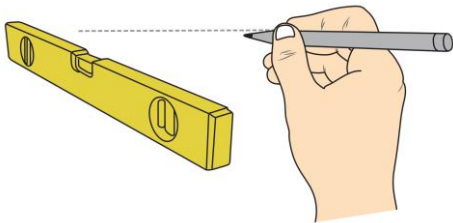

## Features:

- Long Term Reliable Adhesion.
- Damage Free Hanging.
- Quick Mounting.
- Re-adjustable Wall Adhesive.

**Product Description:** The provided Acoustic Panel Tape squares are heavy duty mounting tape that's specially made for acoustic panel installation. The tape is designed to adhere permanently to foam/fabric. However, when applied to your wall it can be removed and repositioned without leaving a residue or damaging the wall surface.

1

Start Here

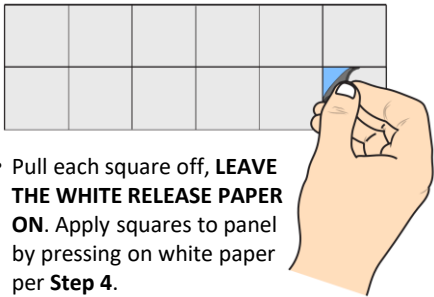

- First **plan your acoustic panel layout\*\*** and read directions 1 through 6.
- **Mark your desired panel locations** with a level and a pencil or masking tape.

2

- **Wipe wall area free of dust. Allow to dry** if water or rubbing alcohol is used (**Do not use household cleaners**).

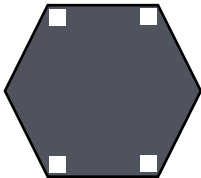

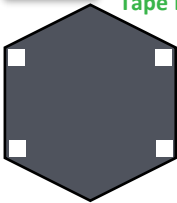

3

- Pull each square off, **LEAVE THE WHITE RELEASE PAPER ON**. Apply squares to panel by pressing on white paper per **Step 4**.

4a

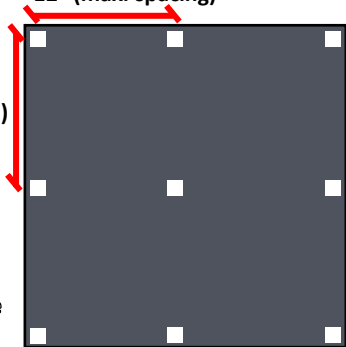

Standard Hexagon Panel  
Tape Locations:

12"  
(max.)

Large Panel (>12"x12") Tape  
Locations:

12" (max. spacing)

: 12" Square Panel  
Tape Locations

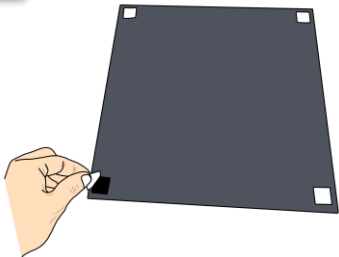

- **Do not remove the white paper during this step.**

4b

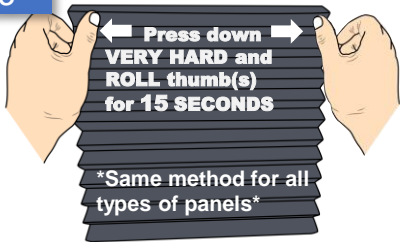

- For long term success, be sure to apply for the full **15 seconds**. This allows the adhesive to “wet out” and stick permanently.

5

- After firmly applying the squares **remove the white release paper** from each square. **Please double check** all squares.

6

- **First, lightly apply** to your wall to test your layout. Then, to permanently install, **push firmly on the panel** behind each square for **15 seconds with thumbs**.

**Note: To move panels after installation, pull up on the squares and not the panels.**

- We want to do everything we can to **ensure you are happy** with our products. We spent the time here in Syracuse, NY to develop unique **Acoustic Panel Tape** that:
  - will provide a reliable mounting method,
  - won't damage your walls,
  - and are quick and easy to install.

- Please **share photos/videos** and leave a **review**. We hope you've had a great experience!
